

ENQUIRY SHEET

BEP CONDENSATE LIFTING PUMP

- * Condensate quantity to be lifted (Kg/hr) = -----
- * Height (Head)
upto which lifting is required (mtrs.) = -----
- * Condensate pressure available Kg/cm² (g) = -----
- * Condensate Temp (Degree C) = -----
- * Condensate Quality = corrosive /Non-corrosive/contaminated.
- * Required with/without Reflection water gauge.
with/without Totaliser.
- * Present lifting method = -----
- * Want to replace present pump
the details of which are -----
- * Live Steam pressure available Kg/cm² (g) = -----
- * Specific Requirement if any = -----
